GRAYLING, MICHIGAN, SEP. 26, 1907.

NUMBER 46.

PUTTING UP FRUITS

SEPTEMBER THE BEST MONTH FOR THE WORK.

ome Old-Fashloned Recipes That Are Decidedly Worth Trying-Delicious Preserves of Grapes and Peaches.

September preserving is by all odds the most pleasant of the fruit season. The days are much cooler, fruits are abundant and cheap and the preserving and pickling is of the pungent, epicy nature-that is a distinct relief after the earlier preserves of a cloying nature. Such fruits and vegetables as are now in the market should be bought early in the morning and old-fashioned recipes which it will pay to try. If the ingredients are bought at the proper figure the results will be cheaper than factory-made

The grape season is now at its height nearly all over the country. Here are the three suggestions for tasty grape condiments:

and the skin of the grapes. After boiling the pulp, strain it through a coarse sieve. Mix this with the skins and then measure. Boil half an hour, then add to it a pint of sugar to each quart of grapes and cook them until

Grape Catsup-Take nine pounds of strained grapes, five pounds of sugar, two-tablespoonfuls-of-cinnamon, allspice, cloves and one-fourth spoon of Boil this together thick and when cool thin with vine-

gar.
Spiced Grapes—Pour over fivepounds of sugar as little vinegar as vill dissolve it, six cloves, a stick of cinnamon and boil to a thick syrup. Pour this hot over seven pounds of grapes, picked from the stems, and let it stand over night; drain off the fruit again. Repeat this process three

The large late peaches are particu larly_well-suited_to_both_pickling_and

Brandled Peaches - Take pounds of peaches, the same weight of sugar, and one pint of brandy. Peel let it stand over night. Drain care fully, boil and skim. When the syrup slowly until_the_peaches_are_clear. Lift the fruit carefully-into jars. Boil the-syrup-unitl-quite-thick, add-thebrandy and fill the jars, sealing very

Peach Fritters.

Boat together the yolks of two oggs and a half cupful of cold water. Add one cupful of sifted flour mixed with a pinch of salt and olive oil and beat well again. Then stir in lightly the whites whipped to a stiff froth and set aside in a cool place for several hours. Have ready a kettle partly filled with smoking hot fat. Dip pared and halved pieces of peaches of flour and water, she says, in the into the batter. Hold on the fork for pan in which the squabs are roasted. irain, off, then drop into the hot fat and cook golden brown. Skim out and drain for a moment on unglazed paper, then roll in powdered sugar and send at once to the table.

Rug and Curtain Holder. When beating carpets or rugs on the line the housewife is presented with a line the housewife is presented with a problem. To prevent the rug slipping Take six good-sized apples and core out of position, after being adjusted, a take six good-sized apples and total Massachusetts man has devised a them. Put two cloves into each apple and a granulated sugar as it. wire, the upper portion being curved to fit over the rug. In connection with the four lower corners-which, on account of the tension of the spring wire are inclined to come togetherto the rug. The operator has ample epportunity to stand at a distance from the rug and swing the beater

with as great-force as desired.

Salad Dressing.

Use two eggs, one-half lemon, one-cup whipped cream, two feaspoons olive oil, sugar, salt. To the yolks of the eggs, beaten stiff, add the oil and juice of lemon slowly, beating hard all the while until all has been dded and it is quite thick. Then add the beaten whites of eggs, sait and sugar to taste, and then add one cup of whipped cream. Whip all together until stiff and set on ice until ready

Delicious Cream Ple Line a pie tin with rich pie crust,

ing take one and a half cupfuls of cream and put in pan to heat; beat together two eggs, one cupful of sugar, two teaspoonfuls flour and half a cupful of cream. Add to cream and cook until thick; then whip it with a silver spoon until cool. Add a teaspoonful of vanilla and put in crust an hour before

AROUND THE HOUSE FOR WINTER TABLE USES FOR AMMONIA

VALUABLE HINTS ON MATTERS IN GENERAL.

One of the Best of the Perfumes for the Linen Closet-Mixture That Will Restore Faded Wall Paper.

Ferfume for Linen.—Take half a pound of lavender flowers without the stalks, one-half ounce each of dried thyme and mint, a quarter of an ounce. of ground cloves and carraway, one together and put into silken bags.

Apple Water.—A change can be rung on the ordinary beverages when the first apples appear. Take two rather tart apples or two roasted apples. Peel them, take out the core and slice up-thinly. Add a piece of yellow rind of a lemon and a little sugar. Place in the bottom of a jug and pour a pint of strain the liquid and serve with the apples.

To Banish Fleas.—Sprinkle camo mile flowers in the beds and linen closets and among the clothes and the

Restoring Faded Paper.—Where cartridge paper has faded during the summer the original color can be restored by getting regular water color and the required amount of sizing to hold. Rub the dust off the paper with a cloth and apply the water color to the paper with a kalsomining brush. To Exterminate Cockroaches.—Perfect cleanliness is the first essential. Leave nothing to eat_out of the refrigerator. Have all shelves, etc., thor ughly scrubbed and scalded and

To Preserve Flowers.—The shape and colon of flowers may be preserved cold put is ed long after they have become dry by dry place. dipping them—carefully—as—soon—as-gathered in limpid gum-water. The gum forms a complete coating over the stem and petals, and the flowers often remain perfect for months.

Restoring Faded Cottons.—When cotton goods have faded in washing dye of the desired shade can be used after the goods have been thoroughly ter; then beat three eggs until foamy after the goods have been thoroughly washed. By getting an assortment of dyes—blue, red and yellow—almost any shade deslied can be mixed. Use

dye in the last rinsing water, A Cream Cheese Dish.-If you like cream cheese or pot cheese, vary the ped chives with it. Mix the cheese with a small pot of butter and then put in the chives and salt and pepper, and leave for a little while until the taste of chives has time to perme ate the cheese.__

Make a bread stuffing for squabs moistened with sherry. Mrs. Eleanor Lucas, a writer for many magazines of cookery, whose recipes always or roasted squabs. Make a plain gravy

To this add a tablespoonful of chopped parsley, two tablespoonfuls of orange juice, the grated rind of an orange and sait and pepper. This must be strained and served hot. If the squabs are broiled make a gravy with a little stock or meat essence and finish in the same way.

will hold. Place them in a baking pan, without touching, and add a cupful of water, or more, as you think fit. Look at them often and try to keep them them whole. When done take out-carefully and place in dish. Strain the sirup they were coked in and put in another saucepan, with a little gel-atine (dissolved) and a few drops of red coloring. Boil till quite clear and then put around apples. Set away to

Cucumber Pickies

Pour boiling water over one peck of cucumbers, let stand until cold, then wipe dry and pack. Pour over them this prepared vinegar: Boll together one gallon of cider vinegar, three tablespoonfuls of black pepper, eight tablespoonfuls of salt, then mix in a little cold vinegar, two tablespoonfuls of curry powder, four tablespoonfuls of cornstarch, eight tablespoonfuls of nustard. Stir into boiling vinegar: let all boil up, then pour over cucumbers and seal. These are fine.

Fruit Cookies.

Take two cupfuls of sugar, one cupful of butter, besten to a cream; three eggs well beaten, one half a grated nutmeg, one cupiul of cut dates, one cupful of chopped walnuts and one level teaspoonful of baking soda dissolved in two teaspoonfuls of hot wa ter. Drop from spoot into pans and

One quart of milk, two tablespoon-fuls rice, three tablesponfuls augar, a little salt and nutmeg, handful of aisins and butter the size of an egg. Put all in bean pot and bake in year, slow even five hours, stirring often un-til half an hour before serving. Serve hot with or without cream.

An easy and convenient way to re-move the silk from sweet corn is to reshly reasted. Rub-into-title a neit use a small vegetable scrup or use, to a smooth paste for use. This pletely the silk is taken off.—Good makes delicious sandwiches for pic. Housekeeping.

JELLY AND MARMALADE FROM ONE OF THE GREATEST OF LABOR THE PEACH.

Dainties That Will Be Much Appreclated When the Snow Files-Almonds Add to Flavor of Marmalade.

Peach Jelly.-Take fine, juicy free stone peaches; pare and quarter them; scald in a little water, drain and mash them and squeeze through a jelly bag. To every pint of juice allow one pound of sugar and a few of the peach ker-

Having broken up the kernels and

boiled them by themselves for a quarter of an hour in just sufficient water to cover them, strain of the kernel water and add it to the juice: mix the juice with the sugar; when it is melted boil them together 15 minutes until a thick jelly forms. Skim while it boils. spoon and holding it in the air to see

Try the jelly by taking a little in a continues to thin, it will congeal by stirring an ounce or more of isinglass, dissolved and strained. When the jelly is-done put it into tumblers-and-make

Peach Marmalade.- Take ripe vel low-freestone peaches; pare, stone and quarter them; to each pound of fruit allow three-quarters of a pound of sugar and half an ounce of bitter almonds or neach kernels blanched in

mash them to a pulp; mix them with the sugar and pounded almonds and put the whole in a preserving kettle; let it boil to a thick jam; skim and stir well, keeping the pan covered as much as possible.

sufficient time for boiling it. When cold_put_in_jars_and_keep_in_a_cool

A Tomato Waffle. Pare six medium sized ripe toma-toes, chop very fine, add one level teaspoon of salt, one fourth teaspoon of pepper, one tablespoon of putter melt pepper, one tablespoon of butter melt-ed after measuring. Now add-enough

and add. Sift half a teaspoon of sods in a little flour before adding. Have the waffle iron very hot, grease both upper and under lids, place a cooking spoonful of the batter into each section, close lid upon it and bake at least one minute on each side; when serving cut the sections apart and arrange on a napkin. Serve as ar entree.

Peel one pound of choice sweet potatoes, cover with boiling water, boil five minutes, drain and throw water away Then cover with a pint of boiling wa ter, adding a sliced onion, green pep per, a bay leaf and a pinch of thyme Cover and cook until the potatoes are soft, then press through a colander a tablespoonful of butter and a wine glass of sherry. Strain through a fine sleve and serve with squares-of-toast

Lady Baltimore Cake. Rub a cupful of butter to a cream with two cups of powdered sugar; add a cupful of milk; when well mixed stir in juice of a lemon and whip very and tart apple with a mayonnaise) is light; then stir in alternately the stif a pleasant addition. fened whites of six eggs and four even cupfuls of flour sifted twice with a rounded teaspoonful of baking powder. put together with this filling and frost clean.

JAIL FOR TRUST OFFENDERS.

By Attorney General Bonaparte. I have noticed a good many com-

plaints that criminal prosecutions against trust magnates and sentences of imprisonment for them have bee very infrequent, and, in fact, for practical purioses unknown. It is perfectly true that, in my opinion at least, a better moral effect would be produced by sending a few prominent ien to jall than by a great deal of litigation, however successful, against corporations they controlled

C. J. BONAPARTE. But it must be remembered that it successful prosecutions which would have a good Some time since two corporations and their respective presidents were indicted jointly for violation of the criminal provisions of the anti-trust law. If the rporations were guilty of such, it would be hard for the lay mind at least to understand how their presidents could be innocent. Nevertheless the jury convicted the corporations and acquitted the presidents.

It is the avowed purpose of the department of justice to prosecute criminally any one who is really responsible for violations of the anti-trust law wherever it can do so with any reasonable probability of success. It does not prosecute mere underlings who are known to every one to have acted under the direct authority of their superiors.

WOMEN ARE BRAVER THAN MEN

By George R. Sims. There is bravery and bravery. There are women and women. The noblest bravery is the bravery of the noblest type of womanhood, for it is the bravery of self-forgetfulness and

self-sacrifice. The single woman dependent on herself for per livelihood never made a braver fight of it than she makes to-day, and she sets a bright example to many a young man in the struggle. The widow, left frequently with a young family practically unprovided for, fights with the stout heart that th widower does not always display.

We have but to read the stories of heroic self-sacrifice by women for their children in the stories of accident and inquest that are the saddest incidents of daily life, to learn, to know, and to honor the splendid bravery which a gentle and loving woman can be capable. It is in the sublime and all-conquering instinct of motherhood that woman constantly displays a bravery in the presence of which the bravest man is proud to do her homage.

fen are braver than women in their code of hono Men are braver than women in defying Mrs. Grundy, They are braver in resisting temptation to personal ex-

They are braver in acknowledging the faults, their pecuniary positions, and their poor relations, The moral cowardice of a gard to the flight of time is proverbial. In the presence of the census paper every woman over five and twenty is an object lesson in the lack of bravery.

APPALACHIAN FOREST RESERVE

By W. L. Hall of the U. S. Forest Service. · The States east of the Mississippi are esti-mated to contain now but 900,000,000,000 feet

of lumber. The States have reserved about 2,500,000 acres. All the rest is under private ownership, which system has resulted in the reduction of the commercial forest from covering the entire area to its present condition, Over most of the region fires still burn without hindrance. The forest is being used faster than ever before. As an Index of the changed situation in the timber supply in the Eastern States in-ten years. note the rise in prices of our leading woods. Whatever side the timber situation in the Eastern States is viewed from, one is forced irresistibly to the conclusion that remedial measures must be taken, and that quickly, or remedy yet proposed which at all meets the situation is for the federal government to undertake the establish ment of national forests in the Appalachian mountains. Although the Appalachlans bear large quantities of plue, spruce, and hemlock, they are essentially a hardwood reion, and they are the only hardwood region we shall have in the future. There is no question but that with the right management the Appalachian mountains would produce permanently all the hardwood timber required in the United States.

OUR DADDIES OUT-THOUGHT US

The young people of to-day, as compared

By W. P. Faunce, President of Brown University. with those of fifty years ago, are chiefly deficient in power of sustained attention and original thinking. They cannot, or at least they usually do not, think as clearly, as patiently and as cogently as did their fathers

They do not as quickly distinguish the ir-relevant from the pertinent, the kernel from the huse, as the men of the last generation. They have an amazing fund of information, they are readers of bright ephemeral literature, they tasted every fruit on the great tree of knowledge, they know a thousand interesting scraps, they are more tile and ingenious and attractive than any other of the recent generations.

But they are quickly led astray by sophistry, and easily led to surrender conviction when it conflicts with interest.-New York World,

Unless all signs fall, the Dingley tariff act of 1807 will remain in force ger than the famous Walker tariff of 1840. The leaders of the party in power have no intention of revising the tariff during the coming session of Should unforeseen elrenm stances not force them to change their purposes, the present law will survivo till after the presidential election in This will make it eleven years old. The Walker tariff remained in operation eleven years. It is quite finable that Tongress will revision before the autumn of 1909, and the work of drafting, amending and debating a tariff bill is so slow and complicated that the bill could not be come a law before some tline in 1910.

These facts will not affect the present demand for tariff changes, coming from men of all parties. The Deniscrats, of course, demand that the law passed by the Republicans be repealed, not because the Republicans passed it but because of their hostility to the protection theory. That is the duty of the opposition-to point out defects in the policies of the party in power. Enough Republicans agree with the Democrats on the need of revision, even though they differ as to the methods, to make it morally certain that some changes will be made within two

The Wilson-Gorman tariff, which preceded the Dingley law, was passed in 1894, and the McKinley law went through Congress only four years ear-lier, in 1890. The tariff_that preceded the McKinley act was passed in 1883, and-it-superseded-a-law-enacted-in 1875. In the twenty two years before the present law Congress passed four eneral tariff acts, which had an average life of a little more than five years. -Youth's Companion.

The "Real" Prosperity.

At the present time one cannot but pause and marvel at the unparalleled prosperity which-now-hovers-over-this progressive nation. Every industry throughout the country is flourishing as lever before, and a "full dinner pail" confronts every tradesman and laborer who is willing to toll. From East to West and from Noth to South comesthe demand for men; harvest time is a hand and some industries may suffer for a single idler in the United States inder present conditions, neither has there been for some years past-but just now the field of opportunity-is broader and better than ever. And the end is not yet; advancement is cer--tain where confidence is so prono and general. The country is without serf or a slave, and with plenty of work at good wages should inspire ev-"She touches on it very lightly. She ery one with a desire, from a political nas entire confidence in my standpoint, to leave well enough alone talk, but nevertheless it is well to re of going back to the dark-period of a

No Apology Needed. It pleases Democratic speakers and organs to represent that the present fariff law is on the defensive and forced to find excuses for a longer conflutance. The plan of attack is to discredit the law and then push a genassault on the protective system. All through its history the Democratic party has been opposed to the polley of protecting American yages and in-dustry, and its talk now or tariff revision is desprive. Its platforms have always been against any such protec tion in a tariff: According to the de daröd Democratic belief-a tariff-should be framed for revenue only, and workto make the best of such resources as they can-command in open competition with the world. If the next Democratle national platform leaves out a plank Have you salted the stock this week to this effect it will be different from the party's former avowed position. And when the bearing vines have made three or, four leaves beyond the fruit pinch them off in the same way. In this simple way at least week may be gained

Bees Paster Than Pige

are swifter in flight than pigeons—that is, for short distances. Some years ago a pigeon fancier at Hamme. West-phalia, laid a wager that a dozen bees liberated three miles from their hives would reach home in less time than a dozen pigeous. The competitors were given wing at Rybern, a village nearly a league from Hamme, and the first bee reached the hive a quarter of a minute in advance of the first pigeon. The bees were also slightly handleapped, having been rolled in flour before starting for purpose of identification.

Raising Camphor in Florida. Secretary James Wilson of the Department of Agriculture, in a recent address delivered before the Americus Club of Pittsburg, declared that the United States was successfully experimenting in the production of camphor. He said, in part:

"For years the department has been distributing camphor tree seed, and thousands of trees are now growing throughout the South and in the Paclile Const States. Two years ago a serious effort was made to develop the manufacture of camphor from these

"By improvements in manufacturing processes satisfactory results have been accomplished, and a large manufacturing concern is now building up a camphor grove of 2,000 acres in Florida, from which it hopes to make its camphor. This firm uses more than \$300,000 worth of camphor every year.

Farm Wood Lots. Throughout a very large portion of

the United States nearly every farm has a certain part of its area under wood, either planted, as in regions otherwise treeless, or of natural ground shows up slick and cozy, as it growth. The value of this wooded por-leaves the moldboard. Too wet, and tion, besides affording protection from the wind, is chiefly for fuel, fencing and railroad ties, with some building material and the wood needed for sme cial uses about the farm. Without the wood lot the farm very eften would be an unprofitable investment, because the could not afford to buy the wood-which now costs him very little except the labor of cutting and moving it, but in the majority of cases this part of the farm is far less useful than it might easily be made. This is true because the farmer does not study its productive capacity as he does that of not make it yield as fully as he might, with little or no additional labor, if he went about it in the right way. -Gifford Pinchot.

Composition of Wheat Bran.

In a Massachusetts State report wrong, and adds gestibility and fortilizing ingredients of wheat bran, as compared with other weight should be carried by the bind concentrated feeding study, and two wheels. This has been proved by of feeding experiments with cows are reported in a Massachusetts State re-port by J. B. Lindsey.

The roughage in the two rations compared consisted of hay and silage and the grain feed of cotton-seed meal and flour middlings. To this was added either bran or sllage with corn me or corn-and-cob meal. In one of the experiments the results were slightly in favor of the bran ration, while in the other the so-called sliage ration

gave the best results.

The author concludes that for small herds the quantity of purchased grain in place of wheat bran. It is suppost ed that the grain mixture may consist of one and one-half pounds of cottonseed meal, two pounds of flour midds corn meal or corn-and-cob meal Malt sprouts may be substituted for the wheat, oats or rye middlings.

TUMORS CONQUERED

Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy Tumor.

The growth of a tumor is so insidious that frequently its presence is wholly unsuspected until it is well vegetable Compound.

So called "wandering pains" may. Come from its early stages or the presence of dauger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and thigh.

thigh.

If you have mysterious pains, if there are indications of inflammation or displacements, secure a bottle of Lydia E. Platham's Vegetable Compound, made from native roots and herbs, right sway and begin its use. The following letters should convince svery suffering woman of its virtue, and that it actually does appoint timors. conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes: Dear Mrs. Pinkham :--

"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me! I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years growth, which three of the best physicians declared I had. They had said that only to operation could help me. I am very thankful that Hollowed's friend's advice and took your medicine. It has advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live." Mrs. E. F. Hayes, of 26 Ruggles St., Boston, Mass., writes:

Dear Mrs. Pinkham:-

Dear Mrs. Pinkham:—
"I have been under different doctors' treatment for a long time without rollef. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well women. Lydia E. Pinkham's Vogetable Compound expelled the tumor and strengthened my pelled the tumor and strengthened my whole system."

Mrs Porry Ryers of Mt Pleasant Iowa, writes

CUNNING OF MUSKRATS.

Foresight With Which These Animals Build Winter Homes.

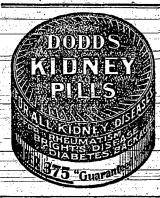

In the month of March, before the rivers have opened, on the snow around the heads of the creeks and about the airholes in the thick ice may be seen the curious trail of the muskrat. It can readily be recognized by the firmly planted footmarks, heavily and slowly impressed and the sharp after drag o the long, scaly, bladelike tall. All through the cold winter months these _111_ heavily furred animals have lived warm and comfortable in their constructed houses, rearing their third and last litter. One house erected about September seemed planned with almost human foresight. Here, with their long sharp teeth and strong, inch long_claws, they had cut and cleared wide paths through all the marshes paths so deep that three feet of ice and not close them, so wide that we have often paddled along them, marveling at the great floating masses of torn-up aquatic vegetation. These paths were hundred yards long and four feet wide and were cut through a mass of tangled cover high enough in most places to thoroughly conceal a duck

channels and the whole marsh is be fore them to choose their meal from The long yellow roots of the flag and the julcy-tubers of the wild-onion (the muskrat apple is the more poetle Ojibway) hang exposed before them or are readily-torn out.-Bonnycastle Dale in Outing Magazine.

KIDNEY TROUBLE

Suffered Two Years-Relieved In This Months

MR. C. B. FIZER, Mt. Sterling, Ky.

writes: "I have suffered with kidney and other trouble for ten years past.
"Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt "I believe that I am well and I there-

fore give my highest commendati-the curative qualities of Peruna." Pe-ru-na For Kidney Trouble.

Mrs. Geo. II. Simser, Grant, Ontario,

Mrs. Geo. II. Simser, Grant, Ontario,
Can., writes.

"I had not been well for about four
years. I had kidney trouble, and, in
fact, telt badly nearly all the time.

"This summer I got so very bad to
thought I would try Peruna, so I wrote
to you and began at once to take Peruna
and Mannim.

"I took only two bottles of Peruna
and one of Mannin, and now I feel
better than I have for some time.

"I feel that Peruna and Mannim cured
the and made a different woman of me
altogether. I bless the day I picked up
the little book and read of your Peruna."

It is the business of the kidneys to remove from the blood all poisonous.

materials. They must be active all thetime, else the system suffers. There are
times when they need a fittle assissance.

Peruna is exactly this sort of a remedy. It has saved many people from
disaster by rendering the kidneys service at a time when they were not able
to hear their own burdans. vice at a time when they were not able to bear their own burdens.

Rare Japanese Porcelains.
On the left side of the building is a big display of porcelain, a great deal of it being made in Nagon simply for export-which means that it is not the pest—and a great deal came from Iniarl, where potteries were established by a Korean some 300 years ago, says a Toklo letter to the Portland Oregon, ian. The best porcelain displayed was some by Makuga, who has his kilns and hips in the outskirts of Yokohama. One small peachblow vase was marked yen 500 and a big blue one was yen 550. Makuga Kozan is a man of great repu example, about which everybody has tation heredbouts and a winner of heard, killed at the outside some \$6,000 medals abroad. Many of his nigros was in-imitation of the old Chme

The wooden articles were interesting Some trays, inlaid with mother-of-pearl in simple designs-caught our eyes, and specially fine was a panel, carved by Tokio artist, showing three saints standing in bold relief agriust the plain background. The expression of faces and hands was wonderful, yet very has already more than doubled this huge simple and done with few lines. There was a big display of lacquer, chiefly trays and the tables and bowls that the Japanese use for meals. The finest were made in Kanezawa, on the west There were some beautifully constcarved and lacquered altars, and before these were many neople, walking slowly and talking in low tones. Ten-

household, showed some truly artistic things. A ten service of most grace ful shape and design, with the bent bodies of dragon files for handles, was what fascinated us most.

A Scholarly Wit.
The quick mind of the late Doctor Haig-Brown, Master of the famous Charterhouse School in London, was Telegraph, to seize upon an absurdity and give it a witty turn.

A fond-parent once wrote, asking him "inter her son at Charterhouse. "Dear Madam," he wrote back "I shall be most happy to undertake your

Thenarts ment of the October Woman's Home

A Human Appeal.

A humane citizen of Richmend, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with week lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recomendation." It saves more lives than all other throat and lung remedies up together. Head awes mare lives than all other throat
as a cough and cold cure the world
over. Cures asthma bronchilis, croup,
whooping cough, quinsy, hoarseness,
and phthisic, stops hemorrhages of
the lungs and builds them up. Guaranteed at L. Fournier's drug atore.
Soc. and \$1.00. Trial bottle free.

tion, to be held in the Coliscum and Annex, Chicago, Oct. 5 to 19, will be exhibit of this character ever, con ceived. It will be interesting and pleasing to every individual, but particularly to corn growers and those in any way concerned in corn.

Bay City and Saginaw people are manifesting interest in forest reser es in Michigan by making invest ments in desirable property. It is learned that Boutell & Co., of Bay City, have purchased several miles of He finds his the purchasers contemplate extensive improvements which will make it one of the finest forest reserves in the

Music for the National Corn Exposition.

The music at the National Corn Exposition, October 5-19, Coliseum Build ing, Chicago, will be furnished by the Illinois Naval Reserve Band of thirty pieces. These musicians practice to gether constantly and constitute as excellent musical attraction. The Exposition-is exceedingly fortunate in securing their services, and the visitors will be highly pleased. A concert will be given every afternoor and another every evening.

Lovell's Locals.

The box social last Monday even ing for the benefit of the minister wa was auctioneer, boxes were in great lemand, sales were good. Prices migh look high to outsiders. Did not hea of any complaints. The ruling price while one box contained one pickle and one egg, was sold for only twenty-five cents, the receipts from sale of boxes was \$43. Total receipt above expenditures about \$50. Election Tuesday was quiet, very

little interest taken, only 40 ballots were cast.

TORTURED TO DEATH

Disclosure of one of the most horrible murders in the history of northern Illi-nois came to light Friday at Zion City. An aged woman, a sufferer for years from An aged woman, a sufferer for years from rheumatism, was killed by a religious sect, which believed it could cure her of the disease by "casting out deviis." The woman's legs, arms, neck and ribs were broken, and she was strangled. The victim is Mrs. Lettia Greenhaugh of Zion City. The disclosure of the murder was made after a midnight inquest held at the dead woman's home by the coroner of Lake county. The case is almost without parallel in the history of religious be-Lake county. The case is almost with out parallel in the history of religious be liefs. Five persons are being held on the charge of manslaughter, two as principals. Those held are: Harold Mitchell, Mrs. Harold Mitchell, Jennie Greenhaulgh, Walter Greenhaulgh, Mrs. Emma Smith. The Mitchells, declared to be the ring-leaders, were held as principals by the coroner's jury which made the midnight investigation. Two women are raving maniacs at Zion City, it is declared, as a result of the religious murder. They are Miss Roxie Corbett and Miss Lucy Tyme. Roy Neal, also a "Parhamite," is declarand to have attempted to commit suicide. He was found in Shiloh park with a hand-kerchief bound about his mouth. Zion City is stirred over the revelation of the brutal murder. The death is laid directly at the door of the religious zeal of a new sect in Zion City called "Parham-ltes." Its creed proclaims that all disease is devil, and to effect a cure the devil must be east from the body. In casting the "devil" from Mrs. Greenhaulgh's body she was killed. Mrs. Greenhauled died Wednesday noon. For hours the members of her family believed that instead of dying she had been cured and that a resur

CHICAGO.

While there is a more conservative tone permeating business circles, fall ac-tivity in the leading industries is more defined and of encouraging magnitude. Production reflects no appreciable failing off, but operations would be conducted with greater case were the tension less in

money and cost of supplies.

Transportation facilities by both rail and lake are severely tested by increased general freight offerings and marketing of crops, and with this gratifying condi-tion in evidence it is not clear that com-merce is undergoing shrinkage. New de-mands continue strong for factory materials to complete contracts which Fun far ahead, especially in steel, forge, car and machinery construction.

The most active branch at present is

that of stuple merchandise, the absorp-tion of which is remarkably strong and comparing favorably with a year ago in textiles, footwear and food products. The attendance of visiting biyers includes, many from distant points, and their-liberal orders indicate sustained confidence for satisfactory sales throughout the agricultural communities. Local retail distribution is of seasonable extent.

Mercantile collections in the West oc-casion little complaint, and defaults com-pare favorably with last year in both anmbers and liabilities.

Marketings of crops indicate that grov ers are disposed to secure the current bigh returns. The general demand, for breadstuffs is well sustained and the shipments run heavier than a year ago. Live stock and provisions are in ample supply and the absorption is good for both do-mestic and foreign needs.

Bank clearings, \$243,913,697, exceed those of the corresponding week in 1906

by 15.8 per cent.

BOYS ALLEGAN BANK ROBBERS.

Stores and Get Much Plunder. By the confession of Vern Armstrong, 3 years old, the police have rounded up fue worst gang of burglars that ever op-erated in Allegan, and recovered an in-mense amount of booty which has been stolen during the past few months, and lave also solved the attempted blowing of the safe in the First National bank. which was frustrated by the sudden appearance of one of the clerks of the institution. Young Armstrong's mother went to the officers and told them that her son had in his possession two re-volvers and an investigation followed which led to the lad making a partial confession implicating Henry Albert, 16; Charles Moore, 20, and Glen Austin, 14. The quartet made a complete confession of the attempted bank robbery and of a long list of burglaries that would do credit to an experienced gang of crooks. A search of the various poys homes led to the discovery of a large amount of booty, including money, watches, cigars and many other articles The two younger boys will be sent to the reform school, while the two older boys will be held for trial in the Circuit Court.

LOTUS RARE IN MICHIGAN.

Vicksburg One of Three Places
Where Aduntic Plant Grows.
Vicksburg is just now the Mecca for botanists and nature lovers. That rare aquatic plant, the nelumo lutea, commonly called the Egyptian lotus, is now in blossom. This flower only grows in three places in Michigan, and Vicksburg is one of them. They grow on the mill bond, or Sunset lake, as it has been named in recent years. One strange thing is that although the lake is two miles long, and repeated efforts have been made to grow the plant in other parts of the lake, it will grow only in one little sheltered cove on the west side of the lake. The cover s on private grounds, the ancestral lands of Miss Esther Briggs and her brother, A. V. Briggs, Miss Briggs is obliged to carefully guard the flowers to prevent exermination by ruthless people.

PEACHES BRING MILLIONS

THE REWARD OF FAITH.

By Rev. Dr. S. T. Willis. Thou wilt keep him in perfect peace whose mind is stayed on thee because he trusteth in thee.—xxvi. 3.

It is to be noted that man does not keep himself in peace, for in the sense of this, grace would in fact, he impossible. But it is a gift. Jesus said "My peace I give unto you, not as the giveth, give I unto you," again, "These things have I spoker unto you that my peace might remain in you." We do not come to it by the of toll and struggle; we create it nor walk ourselves into it and yet, however unworthy we may feel ourselves to be, we live daily with in reach of this heavenly boon. It's source is in God, in fact, it is "the

peace of God."
The deep solltudes of nature and the solemn majesty of the heave<u>nly</u> sphere indicate it to the sense of man, but i is experienced only in the deepest re esses of the soul. And this peace of God will rule in the heart if we will permit it.

It is also to be noted that it is a new fect peace, for, indeed, God's peace could be nothing less; and it passes all human understanding. Like the graclous God by whom it is inverted. is incomprehensible even to him that experiences it. It is perfect in its ne-ture and perfect in its work, imparting a divine coluness and serenity of soul and a sweet heavenly rest that the

world can neither give nor take away This peace does not occupy the world of material things; its realm is in the nearts and minds of men. He is kept in perfect peace, whose mind is staved on God. The world promises only trib ulations, persecutions and afflictions Its sweetest smiles are delusive, its trusted -friendships bring danger and its brightest hones are fraught with evil. But God does not leave alone and unaided the soul that is stayed on Him He is an ever present help in time of trouble. He gives and sustains such peace of mind and composure of soul in the thickest of the fight that one can "The Lord is my light and my Lord is the strength of my life; of

whom shall I be afraid?" For greater is He who abides in trusting heart than all the combined forces of the world; the flesh and the devil. The soul kept in perfect peace with me."

And what is the secret of this sweet and yields all unto-Illm in perfect confidence.

This giving up all to God and the happiness. There is no hour so free should be. from care or so exempt from tions and ills that will not be brightened and sweetened if we direct ou night in falth to God; looking through what may through what may seem to be a "frowning Providence" to the "smilling At Algon the stables of Louis Barth face" of divine love and mercy by ear struck by Eghtning and two horses byond. yond.

my commandments. Then had thy peace been as a river and thy righteous nose as the waves of the sea. Peace as a river—that is abundant

free full-living and never falling J includes all other divine gifts and the mind that is so stayed on God, through trust in Him, is kept in security and happiness, for deep down in the soul far beyond any disturbance from any earthly enmity or ill, there flows from the throne of God an eternal and gladdening river of peace.

FACING THE FACTS.

By Rev. Henry F. Cope, "Ye shall know the truth and the truth shall make you free."-John, vili

This is the age of the dominance of science. When a man asks, What shall I believe? only one answer can be returned: Bolleve the things that are An age now onst found it easy to be lieve that it believed what it was told even the things that it know were not so. But to-day at least has the merit of finding no merit in that form of self

deception The passion for absolute truth and spring up in any breast; it is a ripe fruit of religion. The scientist, by his devotion to exact facts, to pure truth

ness and equity. When we translate religion into rosms of life, into actuality as contrasted with imagination, we begin to discover the necessity for foundations 1906.

deeper than legend or romance. Soflong. as a man's religion consisted of imagi nation on the canvas of fancy about his past or future he did not need to take his designs from facts.

But when religion becomes the sel ence of right living, the process of securing right social relationships and character as the expression of ideal personal and individual character, it is evident that in such a work religion must proceed on ascertained, indisputa-

We may be satisfied with myths as to the ordering of the first family, and we may leave to the play of fancy the specifications of an ideal heaven; but when we begin to order our own familles and adjust our social and civic af fairs we are compelled to walt for prinlples based on facts, for truth. Re ligion thus becomes a science.

Much eloquence was spilled over the conflict between religion and science. It was only a conflict between the old-religion and its new form, between the gray dawn and the growing day. Our fathers were not wilfully false, holding on-to-darkness when the light came: but they so long had-held sacred the pletures seen in twilight they were loath to give them up for those of the full day's printing.

The most damaging infidelity is the

lack of faith in-truth, the fear that it might not be safe to allow all the facts to be known. He who in the name of religion seeks to prevent our seeing and accepting the full facts is religion's et us fully free; intellectually, spirit-

sually, morally.
Why should we fear the light of investigation on the things of religion? There is more sacredness in simple. to be lost forever seeking truth than saved by sophistry. How foolish to attempt to adjust our lives by laws bullt out of speculation, to attempt to steer by a compass when there is no pole of

In to-day's changing tides of thought, when the old faiths seem slipping away, simple faith of our own youth or our father's, looking for some firm ground down on nothing but facts to discriminate among the sands of time and the alluvial deposits of tradition till we find the rock of truth.

But facing the facts we find every where one writ large, over all one great ed day conch like a great ram and purpose moving through all nature and it did so the rear end of the baggage dared to hope and dream, that back of at the forward end of the smoker, after salvation; whom shall I fear? The all there throbs infinite love and there Lord is the atrength of my life; of rules infinite wisdom, now is attested by the impressive array of the witesses of science:

Truth always is safe. The hollest error must be born of hell. We can make no mistake in reflishing to go be can say when it comes to the Valley of Shadows; "I fear no evil, for Thou art leads to the ordering of life according One of those who expect said that as and finding of sweet joys as old as the peace, the gift of God's love? It is all hills and as unchanging; she will lead summed up in one word frust be in the paths of rightness, cause he trusteth in thee." That is to Some day our race will know all the

say, it is faith in God. Faith that alphabet of nature and be able to read takes him at his word. It is that con-dition of mind that lays hold on God some day we shall comprehend the wathe story of the unchanging goodness; vering handwriting of history; some day we shall catch the harmony of love and law; we shall know the full staying of the mind on God means truth that is religion; shall know three things—prayer, obedience and things as they are and be what we

AT PANAMA.

Work Progressing on the Big Dam and Other Main Features.

The work on the locks and dam

Panama has taken such shape that it is now possible to see son their form. It is believed that the een months. Four steam shovels are now digging out the sites for the locks and construction can be begun after the excavation for the top lock of the flight is completed. Two steam shovels are preparing the site for the erection of the spillway works of the Gatun dam. Railroad trestles are being erected across the line that will mark the inide and outside boundaries of the big dam, and from one of these dirt trains are now dumping dirt upon the site of the dum-

Preparatory to the installation of pipeline dredges, by which more rapid work on the dam will-be possible, the Charges River has been diverted from ts-main channel and dammed. pipeline dredges should be installed by January 1, when the Work at Gatun will be as actively in progress as that at Culebra. Suitable sand and rock for the big masonry locks have been located, and, what is equally interesting to the engineers, material for the man has been located on the Isthmus. It is lioped; however, that cement can be secured for such a price in the United procure the needed supply there instead of manufacturing it on the Isth-

mus. The general features, designs and de tails of the Gatun and ther locks have worked out, fogether with the general type and number of lock gates to be used. The survey of all the try to be converted into the great Ga tun lake has been completed and fin-ished reports show that the area will be 171 square miles.

Cost of Living in 1906,

A summary of the report just sent to the printer by the United States Bureau of Labor, of which Charles P. Neill is the head, covering the year 1906, shows that the prices of food were generally higher during every month of that year than in the corresponding month of 1905. The price in December was 48-10ths per cent higher than the average for the year 1900, and the year as a whole showed a engine was hurled back into the crowd-bigher average than any slace 1800, the ticles showing the greatest advance lard, evaporated apples, pork, bacon, ham, fish, mutton and butter. The retail prices of food were 29-10ths per cent higher than in the previous year.

The report deals also with the guestion

of wages for manual workers, and gives figures showing that the advance in wages per hour over the preceding year was prices of food. That is to say, the purchasing power of an hour's wages as measured by food was greater last year than the year before. The increase in one in the front becan to sing, so that this purchasing power was 1 4-10ths, per one in the front began to sing, so that this purchasing power was a record power was a write when the cent. Dellahtful Kitchen. A delightful kitchen furnished for a bride recently has pale yellow walls and white woodwork. The floor is covered with a brown and white oilblue and white enamel. The washing cupful of sugar, flavored with extract of the covers, an inch all round being are covered with white olicioth and of orange. Spread on top, put in the allowed for the hem.

the table is enameled white and has a oven, and let it slightly brown. the table is enameled white and has a glass top. At the window is a curtain of white muslin with a coin spot of pale yellow.

Chili Chicken.

Boil a chicken until tender, cool it and chop it fine. Wash and dry a cupful of rice, put it into a pot containing hot lard or butter and fry it a few minutes. Then add some chopped toma-toes, onions, salt and chili powder to taste. Pour all over the chicken, add ing some of the broth from the fowl!

Put over the fire until very hot and serve. Add, if you like, mushrooms and peas to the other vegetables.

How to Keep Cake Fresh.
To keep cake fresh, cut a slice of new bread about an inch thick, and place in the tin with the cake; this will help to keep the cake fresh for some time. The bread must be renewed when stale. An apple placed in the cake-tin will answer the same pur-pose as the bread, and should also be renewed from time to time.

Seafoam Dessert

To one pint cream add one glass of sherry wine, one cup confectioners' sugar, and the juice of one lemon. Whip cream; add sugar, wine, and lemon; whip all 30 minutes and serve, ice cold, with lady fingers.

BREAKFAST DAINTIES KITCHEN AND SCULLERY HINTS.

APPETIZING DISHES FOR THE MORNING MEAL

To Get the Best Results with Biscuits Sornbread and Sour Milk Corn Cake-Soft Gingerbread is Nice.

While the acidity of milk varies, requiring judgment on the part of the cook, a safe general rule to follow is a level teaspoonful soda to one pint our milk, that has stood two or three days, and a scant teaspoonful soda to pint of sour milk that has just turned to a jelly-like consistency, The mistake that many cooks make is to add too much sods. Just enough is required to counteract the the milk. Sour milk that has stood long enough to acquire a bitter or moldy taste is unfit for use and must be thrown away.

For the biscult, sift together two cupfuls flour, one-half teaspoonful salt, a level teaspoonful sugar and a round-ing teaspoonful baking powder. Put into a bowl a half cup each sour cream and milk, then beat into it half teaspoonful soda dissolved in a table spoonful cold water. When it stops "singing" stir in with the sifted flour, mix gently but quickly with a spoon Pat with the floured hand until a smooth cake is formed, then cut into shape with a small biscuit cutter or ea caddy lid. Lay in a greased biscuit pan and bake in a hot oven. you have no cream, rub a spoonful lard or butter in the prepared flour before adding a cupful sour-milk with the soda. Keep the dough as soft as possible, so that the biscuit will be ender Buttermilk biscuits are made in the same way, using a tablespoonful shortening to a quart of flour.

Steamed Cornbread.—Sift into bread bowl three cupfuls Indian meal, one cupful wheat flour, and a half teaspoonful of salt. Mix in another bowl one cupful sour milk and one of moand heat into it a teaspoonful soda dissolved in a tablespoonful cold water. Add to the sifted flour, pour white cherries may be used, and if the steadily for three hours. Bake a few

fresh mint leaves with enough boiling | Sour Milk Corn Cake.—Sift together water to cover them for half an hour. one cup flour, a half cup Indian meal; Strain through cheesecloth, squeezing two tablespoonfuls sugar and a half Sour Milk Corn Cake,-Sift together a pound of sugar to each pint of exim one cupful sour milk and a tea-

Orange Cream Pie. flavor with extract of orange. Pour into a baked crust. Beat the whites

and heat well with a silver fork, after adding pepper and salt, until thoroughly mixed. Put into small earthenware molds and cover with melted butter. The most expert cook couldnot tell it from the fresh salmon.

Baked Breakfast Eggs. Grease muffin tins well with butter, break an egg into each compartment, and season with salt, pepper and butter. Set in moderate oven for five minutes. Remove each egg carefully and serve on hot platter. Eggs cooked this way make an attractive dish.

Mending Gioves. Select silk to match the shade of glove. Buttonhole stitch the edges of the rent around once or twice, as the size of the hole may require. Then join the edges together with a close buttonhole stitch.

Try a'Rice Water Starch. Water in which rice has been boilod may be used for starching old lace, choice handkerchiefs, etc. It gives a soft and dainty stiffness which adds a charm to the appearance.

Good Suggestions for Important Part of the House, Here are some good suggestions for

your kitchen: Have your shades and curtains of white muslin that can be laundered. When using your gas stove in the summer, cover the top of your coal range with newspapers which will make a handy table. Have your rack near the stove, so that your towels will get well dried after each dish washing. A small shelf should be but up near the stove to hold your back of your sink with oilcloth, preferably white, and here may be hung your sing broom, shovel, dish mop and soap box. In a box or drawe may be kept the necessary articles for froning, says Woman's Life. The top may be covered with oilcloth, and will give an extra table. A chest of drawers is useful and almost neces and aprous, besides many other use ful articles. It is well to keep in the kitchen a bottle of linseed oil and lime water together with a roll of old linen pieces for bandages, for use in-case of burns.

HOUSEHOLD HINTS.

Never cook green vegetables with the cover on, as it destroys the color.

When salad dressing is liable to curdle a small pinch of soda dropped in will prevent it from doing so. To keep doughnuts from burning

drop a piece of raw potato into the boiling fat and you will have no trouble with them. New stockings should always be washed before being worn, for the washing causes slight shrinkage and makes them wear better.

Keep a pair of scissors and a waste paper-receptacle in the kitchen. Also a box for pieces of string. They will prove their use frequently.

In mixing a mustard poultice add the white of an egg instead of water and although the effect will be the

same it will not blister the skin for a week or two before using it will last about twice as long and not meli away in the water without any visi

either notted or in beds about the house, there is a small delft watering pot-covered with characteristic canal and windmill pictures.

-Wedding Fruit Cake.

Cream one and one half pounds huttract and boil to a thick sirup. Turn spoonful lard or butter melted, and ter with one and one half pounds light the boiling sirup over large, pitted beat well. Fold in a beaten egg and brown sugar; add the yolks of 12 white cherries. Let it stand over bake in hot gem tin or a round shall eggs well beaten, two-thirds cup molasses, and one tablespoon lemon Mix two pounds flour with one tea spoon of cloves, one grated nutmer and two teaspoons each of soda, cinnamon, allspice and mace, then stir in seedless raisins, halved, one pound figs, cut fine, and one-half chopped nuts. Stir this flour cggs hard, remove the shells, cut to season the shells, cut to season with cut into a pan one cup molasses, one the whites of the eggs beaten stin.
